

Think of Last Summer--

You can remember days when the heat inside your kitchen was so great you could hardly bear it. With the right stove you would have made a better hostess. Save your health. Don't put up with the drudgery of a coal range. You can have a clean, cool, pleasant kitchen. The

New Perfection WICK BLUE FLAME Oil Cook-stove

does away with all drudgery of cooking. Why should you be a slave to a coal range when you can have an Oil Cook-Stove that is cheaper than coal, cleaner than coal, doesn't "smell," doesn't smoke, lights instantly, can be put out instantly, leaves no ashes, and doesn't heat the kitchen. With one of these stoves you can bake or roast the most elaborate dinner. You can change from a slow to a quick fire, or the other way about, by simply turning a wick. Apply a match, and instantly the heat from an intense blue flame shoots upward through the turquoise-blue enamel chimneys to the bottom of pot, kettle or oven—but nowhere else. The stove has every convenience that can be thought of: Cabinet Top with shelf for keeping food and dishes hot, drop shelves to hold coffee or teapots, towel rack; in fact every convenience possible.

The nickel finish, with the bright blue of the chimneys, makes the stove ornamental and attractive.

Summer Prices Anthracite Coal.

Our 1910 summer prices on Anthracite coal will become effective Monday, May 2nd, 1910.

There has never been a time in the history of our business when we felt that we were able to give better values in Anthracite coal than we can on this spring, as we have completed our arrangements to secure our entire supply from two or three of the very best collieries in the Anthracite region, and will have a coal which is uniform in quality, well prepared, and coal that will give far better results than the average.

It is our desire to give our trade the best values that can be had, and we earnestly solicit the orders of our friends and customers.

The Overland factory is at this time 3,000 cars behind on orders. It is not hot air and it is not advertising bluff when we say that the demand for the Overland is growing like a flood. These are actual facts and there is a reason. The very fact that Overlands are hard to get proves their value all the more, and they are well worth waiting for. Give us the "wink" and we will try to get one for you.

WEDNESDAY EVENING, MAY 11, 1910

THE "NO POPE" OATH.

John Redmond, the leader of the Irish nationalists, has sent a letter to Premier Asquith in regard to the removal from the royal accession oath of the words which he says, are "so very offensive to Roman Catholics." He asks the prime minister to take steps to relieve King George of using language at the commencement of his reign which most deeply wound the feelings and outrages the faith of Catholics throughout the empire and the world.

The portion of the accession oath to which Mr. Redmond takes exception is imposed by the bill of rights. It is as follows:

"I, Edward, do solemnly and sincerely and in the presence of God profess, testify and declare that I do believe that in the sacrament of our Lord's supper there is not any transubstantiation of the elements of bread and wine into the body and blood of Christ at or after the consecration thereof by any person, whatsoever and that the invocation or adoration of the Virgin Mary or any other saint or saints is a superstition and idolatry, and I do solemnly, in the presence of God, profess, testify and declare that I do make this declaration and every part thereof in the plain and ordinary sense of the words read unto me as they are commonly understood by English Protestants, without any evasion, equivocation or mental reservation whatsoever and without any dispensation already granted me for this purpose by the pope or any other authority or person whatsoever, and without any person whatsoever, and without any thinking that I am or can be acquitted before God or man of any part thereof, although the pope or any other person or persons or power whatsoever should dispense with or annul the same or declare that it was null and void from the beginning."
